NTSROOM™ - KEY BENEFITS

- + NTSROOM™ is a complete solution with integrated roof and floor system, factory-built and ready to install on site
- + Install a pair of semi-detached houses in a day with one delivery, one crane, and one install plan
- + No high-level steels needed - install starts from a level wall plate and progresses to a complete roof solution
- + Tailored for comfort, thermal efficiency, and design, NTSROOM can include a cantilevered roof for natural shading
- + Our range of NTSROOM products are Part L compliant
- + Easily installed by local carpentry teams.
- + Free 'Supply with Assist' training available for Supply-Only contracts
- + Includes pipe and SVP runs, plus robust flooring

Fully insulated roof, walls, and a partially insulated floor version assist in meeting Part O standards in development.

The Complete Room in a Roof solution

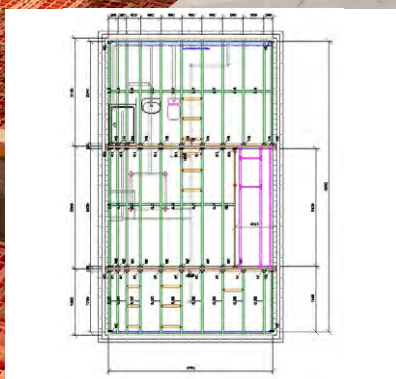

NTSROOM™ - KEY BENEFITS

- + NTSROOM™ is designed with a floor that has all the holes drilled.
- + This allows for install of pipes, and cables without the need for holes being drilled on site.
- + Each NTSROOM is sent with a drawing of the cable and pipe layout

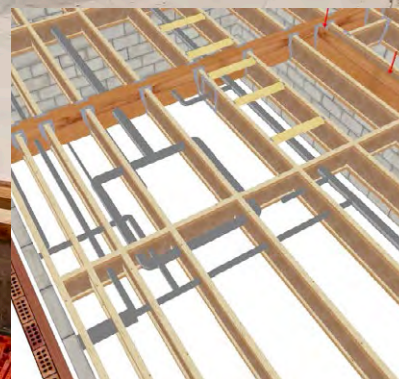

NTSROOM helping you do less-on-site.

Standard detail of a unit showing pipe and cable layout pre-drilled for ease of install and eliminating on site errors.

The joist run front to back to remove the need for holes or trimming following the Simple, Safe , Secure principles. The short spans of the joists make the floor exceptionally stiff for high performance in use.

NTSROOM helping you do Less-on-site

Supply with Assist - your all-in-one support package for Supply-Only Contracts.

Designed as a **Simple. Safe. Secure.** installation of your NTSROOM™.

SUPPLY WITH ASSIST - KEY BENEFITS

- + Comprehensive training for installers
- + Detailed drawings & specifications
- + Support for RAMS documentation
- + Direct line for on-site assistance
- + Faster installs - up to four plots can be installed in a single day
- + Reduced on-site storage needs
- + Enhanced site safety
- + Less packaging waste
- + Fixed pricing for easy budgeting
- + Minimised time working at height
- + Consistent build quality
- + Compliant with Part-L regulations
